Don't Put Your Plastic Garbage Bag in the Recycling Can?

Just place your recyclable items in the cart or bin **and toss the garbage bag in the trash can.**

No Plastic Grocery Bags

Plastic bags are not accepted in the City's curbside recycling program. Due to stringent standards for the reselling of this material, manufacturers require plastic bags be clean, dry and in like-new condition to be used in the manufacturing process. Due to the collection and separation process, Rumpke Recycling can't meet those manufacturer's standards.

Many local retailers have established plastic bag recycling programs. We encourage you to seek out these types of opportunities to recycle your plastic bags and films.

Thanks for Recycling!
